PTZ & Wifi Camera's

Sr. No.	Product Name	Model No.	Product Type	Resolution	Cetegory	Key Features	Description	Specification	Product Image
1	Elite Wifi DOME Camera 3 MP	ES-IPC360	Dome Camera	3 MP	Wifi Camera	3 Megapixel HD Resolution for clear video quality 360° Panoramic View with wide-angle coverage Built-in WiFi Connectivity for easy installation Two-Way Audio with built-in Mic & Speaker Smart Motion Detection Alerts on mobile IR Night Vision for low-light and night monitoring Supports Mobile App Remote Viewing Micro SD Card support for local storage Compact and stylish Dome design Ideal for home & small office security	flexible indoor surveillance, the Elite 3MP WiFi Dome Camera delivers clear and wide-angle monitoring with convenient wireless connectivity. Its 360-degree viewing capability ensures broader area coverage, while smart motion alerts and two-way audio enable real-time interaction and security awareness. With easy installation and mobile app control, this camera provides a practical and modern solution for homes, offices, and small indoor spaces.	Model Number: ES-IPC360 Camera Type: WiFi Dome Camera Resolution: 3 Megapixel Viewing Angle: 360° Panoramic Coverage Connectivity: WiFi Audio: Two-Way Audio (Mic & Speaker) Night Vision: IR LEDs Motion Detection: Supported Storage: Micro SD Card (as supported) Mobile Viewing: Mobile App Supported Power Supply: DC Adapter Installation: Indoor Application: Home, Office, Shop, Indoor Areas Warranty: 1 Year	
2	ELITE SecureBullet Pro Camera	ES-CV240	Bullet Camera	4 MP	Wifi Camera	High-definition imaging for sharp and detailed video output Advanced image processing for improved clarity in all lighting conditions Enhanced night vision for clear visibility after dark Weather-resistant bullet design for outdoor reliability Efficient video compression for optimized storage usage Stable performance suitable for continuous 24×7 monitoring Strong and durable body for long-term deployment Compatible with professional recording and monitoring systems Quick installation with flexible mounting options	Crafted for modern security requirements, the ELITE SecureBullet Pro Camera delivers dependable performance with clear and consistent video monitoring. Its robust bullet-style construction ensures reliable operation in outdoor environments, while advanced imaging technology enhances visibility during both day and night. Designed for professional surveillance setups, this camera provides a balanced combination of durability, efficiency, and high-quality monitoring for residential and commercial security applications.	Model Number: ES-CV240 Camera Type: Bullet Security Camera Image Quality: High Definition Video Output Image Processing: Advanced Digital Processing Night Vision: Enhanced Low-Light / IR Support Video Compression: Efficient Compression Technology Body Type: Durable Bullet Design Usage Environment: Indoor / Outdoor Mounting: Wall / Ceiling Mount Supported Operating Mode: 24×7 Continuous Operation Application: Home, Office, Shop, Perimeter Security

3	ELITE Smart PTZ Bullet Outdoor Camera 5 MP	ES-GX200-SV4G	PTZ 360	5 MP	PTZ Camera	5 Megapixel High-Resolution Imaging for detailed surveillance PTZ Functionality (Pan / Tilt / Zoom) for wide-area coverage Smart tracking & intelligent monitoring capabilities Powerful night vision for outdoor visibility in low light Weather-resistant design for reliable outdoor operation Advanced video compression for efficient storage usage Remote control and live monitoring via mobile app Stable performance for continuous 24×7 surveillance Strong bullet-style housing for enhanced durability	Built for intelligent outdoor surveillance, the ELITE Smart PTZ Bullet Camera combines high-resolution 5MP imaging with flexible pan, tilt, and zoom control to monitor large areas with precision. Its smart monitoring capabilities and advanced night vision enhance situational awareness in challenging lighting conditions. Designed with a rugged outdoor body and reliable performance architecture, this camera delivers efficient, remote-controlled security monitoring for commercial, industrial, and residential outdoor environments.	Model Number: ES-GX200-SV4G Camera Type: Smart PTZ Bullet Outdoor Camera Resolution: 5 Megapixel PTZ Functions: Pan / Tilt / Zoom Supported Image Sensor: High-Performance Sensor Night Vision: Enhanced IR / Low-Light Support Video Compression: Advanced Compression Technology Connectivity: Network / Wireless (as supported) Remote Access: Mobile App Supported Body Type: Outdoor Bullet Housing Weather Protection: Weather-Resistant Design Operation: 24×7 Continuous Use Application: Outdoor Security, Parking, Factory, Campus, Perimeter	
4	ELITE ApexGuard PTZ 5MP	ES-PTZ8990-05MP	PTZ 360 Smart	5 MP	PTZ Camera	5 Megapixel high-resolution imaging for clear and detailed monitoring PTZ control (Pan / Tilt / Zoom) for wide-area and focused surveillance Smooth and precise camera movement with responsive controls Advanced night vision for low-light and night environments Intelligent video processing for improved image clarity Remote operation and live monitoring via mobile app / CMS Optimized video compression for efficient storage usage Designed for 24×7 continuous operation Robust construction suitable for professional installations Ideal for large indoor and outdoor surveillance	Engineered for dynamic and wide-area surveillance, the Elite 5MP PTZ Camera delivers flexible monitoring with smooth pan, tilt, and zoom control. High-resolution imaging combined with advanced night vision ensures consistent visibility across varying lighting conditions. Built for professional security environments, this camera offers reliable performance, remote accessibility, and efficient operation, making it a strong solution for campuses, commercial premises, and high-security locations.	Model Number: ES-PTZ8990-05MP Camera Type: PTZ Security Camera Resolution: 5 Megapixel PTZ Functions: Pan / Tilt / Zoom Supported Image Sensor: High-Performance Image Sensor Night Vision: Enhanced IR / Low-Light Support Video Compression: Advanced Compression Technology Connectivity: Network (as supported) Remote Viewing: Mobile App & CMS Software Body Type: Professional PTZ Housing Operating Mode: 24×7 Continuous Operation Installation Area: Indoor / Outdoor (as applicable) Application: Campus, Mall, Warehouse, Parking, Perimeter Security	

#	Name	Model	Category	Resolution	Type	Features	Description	Specifications	Image
5	Elite PTZ Camera 8 MP	ES-PTZ287531-G008MP	PTZ IP Security	8 MP	PTZ Camera	8 Megapixel Ultra HD Resolution for crystal-clear video output PTZ Functionality (Pan / Tilt / Zoom) for wide-area and focused monitoring Smooth and precise movement with responsive PTZ control Advanced night vision for clear visibility in low-light conditions High-performance image sensor for enhanced detail and clarity Efficient video compression to reduce storage and bandwidth usage Remote monitoring and control via mobile app / CMS software Designed for 24×7 continuous surveillance Rugged construction suitable for demanding environments Ideal for large indoor and outdoor security	Designed for high-precision surveillance operations, the Elite 8MP PTZ Camera integrates ultra-high-definition imaging with intelligent pan-tilt-zoom mechanics to deliver superior situational coverage across large and complex environments. Its optimized video processing pipeline ensures consistent image fidelity while reducing bandwidth and storage load. Built for mission-critical, round-the-clock deployment, the system enables centralized remote control, responsive movement accuracy, and dependable performance, making it a robust surveillance solution for enterprise, industrial, and high-security infrastructures.	Model Number: ES-PTZ287531-G008MP Camera Type: PTZ IP Security Camera Resolution: 8 Megapixel (Ultra HD) PTZ Functions: Pan / Tilt / Zoom Supported Image Sensor: High-Performance Image Sensor Night Vision: Enhanced IR / Low-Light Support Video Compression: Advanced Compression Technology Connectivity: IP Network (as supported) Remote Viewing: Mobile App & CMS Software Body Type: Professional PTZ Housing Operating Mode: 24×7 Continuous Operation Installation Area: Indoor / Outdoor (as applicable) Application: Campus, Factory, Warehouse, Parking, Mall, Perimeter Security	
6	ELITE Guard Pro PTZ Camera 2-Way communication	ES-PTZ-SG500	Pro PTZ	8 MP	PTZ Camera	Integrated 2-Way Communication System for real-time voice interaction Precision-engineered PTZ movement for dynamic area coverage Intelligent audio-video synchronization for live monitoring High-clarity imaging with optimized signal processing Responsive remote control via mobile app / control platform Enhanced night visibility with adaptive low-light technology Secure network transmission with stable data handling Built for continuous 24×7 surveillance environments Reinforced PTZ housing for long-term operational reliability	Developed as an interactive surveillance solution, the ELITE Guard Pro PTZ Camera redefines active security by combining responsive pan-tilt-zoom control with integrated two-way communication. This system enables operators to not only monitor but also instantly engage through real-time audio, enhancing on-site control and situational response. Its optimized video processing architecture ensures consistent visual performance under varying conditions, while the robust PTZ mechanism supports precise movement and reliable long-duration operation. Designed for advanced security environments, this camera serves as a proactive monitoring tool for modern, communication-enabled surveillance infrastructures.	Model Number: ES-PTZ-SG500 Camera Type: Smart PTZ Security Camera Communication: Two-Way Audio (Built-in Mic & Speaker) PTZ Control: Pan / Tilt / Zoom Supported Image Processing: Advanced Digital Video Processing Night Performance: Enhanced Low-Light / IR Support Video Compression: Optimized Compression Technology Connectivity: IP Network / Wireless (as supported) Remote Operation: Mobile App / CMS Platform Audio Monitoring: Live Voice Monitoring & Interaction Body Design: Professional PTZ Housing Operating Mode: 24×7 Continuous Operation Installation Area: Indoor / Outdoor (as applicable) Application: Gated Entry, Parking Area, Campus,
